PRODUCT DATA SHEET

BAGBOX 250L TRANSPORT TOTE

Tailored for Biotechnological & Pharmaceutical industries valuing hygiene & efficient workflow, the BagBox 250L Transport tote is designed for safe and efficient transportation. Ideal for pharmaceuticals and biotech fluid handling applications, it easily accommodates 3D sterile single-use bags. The BagBox 250L Transport tote is a reliable companion, ensuring the safeguarding of sensitive biotech and pharmaceutical fluids during transit. Engineered to simplify safe fluid handling, it enhances reliability in critical tasks. With a substantial 250 litre capacity, this transport tote emphasizes its efficiency in managing smaller loads, featuring unique security elements. Diverging from its cleanroom counterpart, the BagBox 250L Transport tote integrates a lockable door and a compartment above pallet level, ensuring secure storage for discharge tubes during transport to prevent tampering or sabotage.

Whether securely transporting pharmaceutical compounds or handling delicate biotechnological fluids, the BagBox 250L Transport tote stands out for efficiency and security in a more compact volume. Committed to high cleanliness and precision standards, it actively contributes to the smooth and safe handling of fluids in critical industry applications, providing an unmatched solution for smaller volumes.
