PRODUCT DATA SHEET

BAGBOX 100L TRANSPORT TOTE

Tailored for industries where hygiene is mandatory, the BagBox 100L Transport tote is designed for secure and efficient transportation. Well-suited for pharmaceuticals and biotech applications, it easily accommodates all 3D sterile single-use bags. The BagBox 100L Transport tote acts as a reliable companion, ensuring the safeguarding of sensitive biotech and pharmaceutical fluids during transit. Engineered to simplify fluid handling, it enhances reliability in critical tasks. With a practical 100 litre capacity, this collapsible transport tote emphasizes its efficiency in managing smaller loads, featuring unique security elements. Differing from its cleanroom counterpart, the BagBox 100L Transport tote integrates a lockable door and a compartment above pallet level, ensuring secure storage for discharge tubes during transport to prevent tampering or sabotage.

Whether securely transporting pharmaceutical compounds or handling delicate biotechnological fluids, the BagBox 100L Transport tote stands out for efficiency and security in a more compact volume. Committed to high cleanliness and precision standards, it actively contributes to the smooth and safe handling of fluids in critical industry applications, providing an unmatched solution for smaller volumes of fluids.
