PRODUCT DATA SHEET

BAGBOX 600L TRANSPORT TOTE

Crafted for industries prioritizing hygiene in fluid handling, the BagBox 600L Transport tote is designed for safe and efficient transport & distribution. Perfect for pharmaceuticals and biotech fluid handling needs, it easily accommodates all 3D sterile single-use bags. The BagBox 600L Transport tote is an essential companion, ensuring the protection of sensitive biotech and pharmaceutical fluids during transit. Specifically designed biotechnological & pharmaceutical fluid handling in mind, it boosts reliability in critical applications. With a substantial 600 litres capacity, this transport tote emphasizes its advantages in efficiently managing loads, featuring unique security elements. Distinguishing itself from its cleanroom counterpart, the BagBox 600L Transport tote incorporates a lockable door and a compartment above pallet level, guaranteeing secure storage for discharge tubes during transport to prevent tampering or sabotage.

Whether transporting pharmaceutical compounds securely or managing delicate biotechnological fluids, the BagBox 600L Transport tote stands out as the ultimate choice for both efficiency and security in an intermediate volume. Committed to high standards of cleanliness and precision, it actively contributes to the smooth and safe handling of fluids in critical industry applications.
