PRODUCT DATA SHEET

BAGBOX 750L CLEANROOM TOTE

Crafted for industries prioritizing impeccable hygiene standards, the BagBox 750L cleanroom tote is a pinnacle of meticulous design. Tailored to meet the demands of pharmaceuticals and biotech fluid handling applications, it assures compatibility with all 3D sterile single-use bags available in the market. With a primary focus on safeguarding vulnerable biotech and pharmaceutical fluids, the BagBox 750L cleanroom tote stands as an indispensable asset for preserving and protecting sensitive fluids. Strategically designed to optimize fluid handling processes, it elevates operational reliability in critical applications. Featuring a substantial 750 litre capacity, this collapsible tote underscores advantages for efficiently managing larger loads, ensuring heightened versatility and reliability.

Whether facilitating the transport of pharmaceutical compounds or overseeing the handling of delicate biotechnological fluids, the BagBox 750L cleanroom tote remains a steadfast choice. Adhering rigorously to hygiene and precision standards, it actively contributes to the efficiency of fluid handling processes in these critical industry applications, providing a robust solution for volumes larger than the smaller BagBox totes.
