PRODUCT DATA SHEET

BAGBOX 1500L TRANSPORT TOTE

Precision-engineered to meet the exacting standards of industries prioritizing stringent hygiene, the BagBox 1500L Transport tote stands as the zenith of meticulous design for secure and efficient transportation. Customized for pharmaceuticals and biotech applications, it ensures seamless compatibility with all 3D sterile single-use bags available in the market. The BagBox 1500L Transport tote takes center stage as an indispensable asset, committed to safeguarding vulnerable biotech and pharmaceutical fluids during transit. Strategically designed to optimize fluid handling processes, it elevates operational reliability in critical fluid handling applications. Featuring an extraordinary 1500 litre capacity, this collapsible transport tote underscores its advantages in efficiently managing substantial loads while incorporating unique security features. Unlike its cleanroom counterpart, the BagBox 1500L Transport tote features a lockable door and a compartment above pallet level for storing discharge tubes securely, preventing tampering or sabotage during transport.

Whether facilitating the secure transport of pharmaceutical compounds or overseeing the handling of delicate biotechnological fluids, the BagBox 1500L Transport tote remains the ultimate choice for both efficiency and security. Adhering rigorously to hygiene and precision standards, it actively contributes to the efficiency and safety of fluid handling processes in critical industry applications, providing an unmatched solution for large volumes of fluids.
