PRODUCT DATA SHEET

BAGBOX 1000L (1210) CLEANROOM TOTE

The BagBox 1000L foldable cleanroom tote is also designed to be easy to clean and sterilize. Its smooth surfaces and minimal seams make it easy to wipe down and sanitize, and it can be autoclaved or gamma-irradiated as needed. This makes it a great option for industries where hygiene is critical, such as pharmaceuticals and biotech. The tote has a total capacity of 1000 litres making it one of the largest collapsible totes on the market. This makes it an ideal option for transporting large quantities of products within a cleanroom environment. The tote also features ergonomic handles, making it easy to maneuver even when fully loaded.

Overall, the BagBox 1000L foldable cleanroom tote is a versatile and reliable option for cleanroom operations. Its large capacity, compatibility with sterilized bags, and ease of cleaning make it a valuable asset for any organization that operates in a cleanroom environment. With BagBox's commitment to quality and innovation, customers can trust that they are getting a product that is designed to meet their unique needs and specifications.
