

BagBox | Biotech & Pharma Fluid Handling Solutions

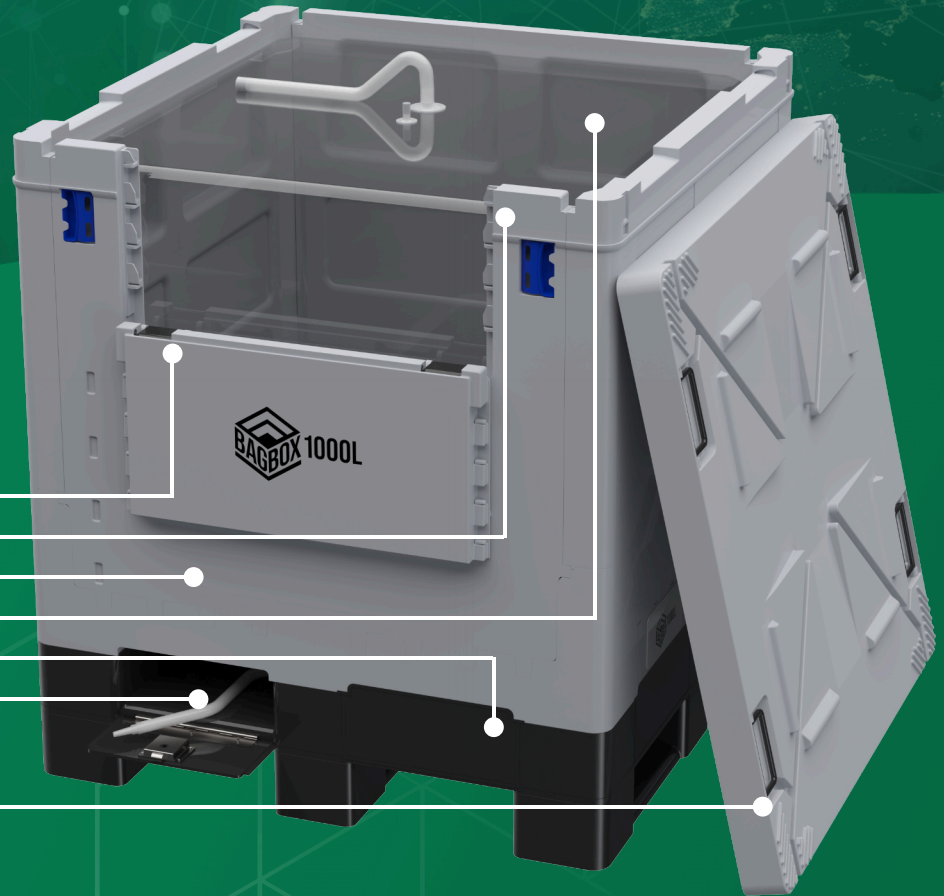

Innovative Thermoplastic Totes & Trolleys for Single Use Technology bags

ABOUT

Bagbox, the original designer and producer of thermoplastic totes and trolley totes for the biotech and pharmaceutical sectors. In combination with single use technology bags, Bagbox totes and trolleys offer safe sterile production, storage and transport of your Biotech / Pharma aseptic liquid products.

WHY CHOOSE BAGBOX

- OEM: Direct contact with design, engineering & production.
- Safety and Versatility: Designs for aseptic fluid handling and transport.
- Efficiency: Streamlining fluid handling processes.
- Quality and Innovation: Industry-leading solutions simplify fluid handling and enhance safety.

Next Gen Smart Door for ergonomic bag installation

Collapsible, reducing usage of expensive space

Flush plastic material easy to sanitise

Fits Single Use bags, or custom sizes

Lockable discharge space

Extra level for discharge tubes

Lockable lid to prevent tampering

CLEANROOM TOTES

Designed for efficient in-cleanroom sterile fluid handling.

Features:

- Capacity range: 50 to 1500 litres.
- Compatible with sterile single-use bags.
- Lightweight, collapsible & stackable.
- Easy to clean.
- Extra level for discharge tubes.

Benefits:

- Reduces risk of contamination in cleanroom environments.
- Efficient aseptic fluid handling in cleanroom.

TRANSPORT TOTES

Ideal for secure sterile fluid transport between cleanroom environments.

Features:

- Capacity range: 50 to 1500 litres.
- Compatible with sterile single-use bags.
- Lightweight, collapsible & stackable.
- Extra level for discharge tubes.
- Lockable discharge space and lid to avoid tampering.

Benefits:

- Reduces risk of contamination during transport.
- Efficient aseptic fluid handling between cleanroom environments.

CLEANROOM TROLLEYS

Facilitates safe & efficient fluid handling within cleanrooms.

Features:

- Capacity range: 50 to 500 litres.
- Compatible with sterile single-use bags.
- Lightweight & easy maneuverability.
- Easy to clean.
- Extra level for discharge tubes.

Benefits:

- Enhance workflow efficiency.
- Minimizes contamination risks in cleanroom.

DRUM TOTES

Optimizes sterility and cleanroom efficiency in a unique form factor.

Features:

- Capacity range: 50 to 250 litres.
- Graduated for efficient monitoring of liquid levels.
- Totes are self supported on sturdy legs.
- Made with thick sidewalls which are durable and impact resistant

Benefits:

- Offers optimal sterility in a unique form factor.
- Available in a variety of sizes and configurations.
