PRODUCT DATA SHEET

BAGBOX 1000L CLEANROOM TOTE

The BagBox 1000L cleanroom tote, especially designed for industries with stringent hygiene requirements in fluidhandling like biotech & pharmaceutical. Tailored specifically for pharmaceuticals and biotech fluid applications, it ensures seamless compatibility with 3D sterile single-use bags. The BagBox 1000L cleanroom tote takes center stage as an indispensable asset, dedicated to safeguarding vulnerable biotech and pharmaceutical fluids. Engineered & designed to optimize fluid handling processes, it elevates operational reliability in critical fluid handling applications. With an impressive 1000 litre capacity, this collapsible tote emphasizes its advantages in efficiently managing substantial loads, ensuring unparalleled versatility and reliability.

Whether facilitating the transport of pharmaceutical compounds or overseeing the handling of delicate biotechnological fluids, the BagBox 1000L cleanroom tote remains a steadfast choice. Adhering rigorously to hygiene and precision standards, it actively contributes to the efficiency of fluid handling processes in critical industry applications, providing a robust solution for volumes larger than its smaller BagBox siblings.
