BAGBOX 250L CLEANROOM TROLLEY

Meet the BagBox 250L Trolley - A intermediate size Rigid Liquid Bioprocess Trolley with a Generous 250L Capacity! Designed exclusively for cleanroom environments, the BagBox 250L trolley is a cutting-edge solution for your liquid bioprocessing needs. This compact yet robust trolley is engineered with precision to ensure safety, efficiency, and superior functionality.

One of its standout features is the revolutionary Next Gen Smart Door mechanism designed and developed by BagBox. With no hinges, slides, catches, or bolts, this unique door design eliminates potential areas for bacterial growth, providing a hygienic environment for your bioprocessing tasks and allows for easy access. The BagBox is crafted from resilient, smooth-surfaced materials that inhibit bacterial growth, safeguarding the integrity of your valuable liquids. Its user-friendly design, made possible by lightweight plastic properties, allows for effortless handling by operators, streamlining your workflow.

With a generous 250L capacity, this BagBox trolley optimizes your process footprint, providing ample space to arrange items like peristaltic pumps and filters directly on the trolley, enhancing organization and efficiency. Compatible with all 3D bioprocessing bag types, this trolley requires no cleaning and ensures a perfect fit-to-fill, maximizing production uptime and minimizing downtime.
